MISUO

COMPANY SALES ANALYSIS

SALES PERFORMANCE REPORT

2024 SALES DATA · EXCEL

From raw company records to a clear, decision-ready sales dashboard.

PRESENTED TO

MISUO Company

PREPARED BY

Ahmed Mohamed Refaat

Project Overview

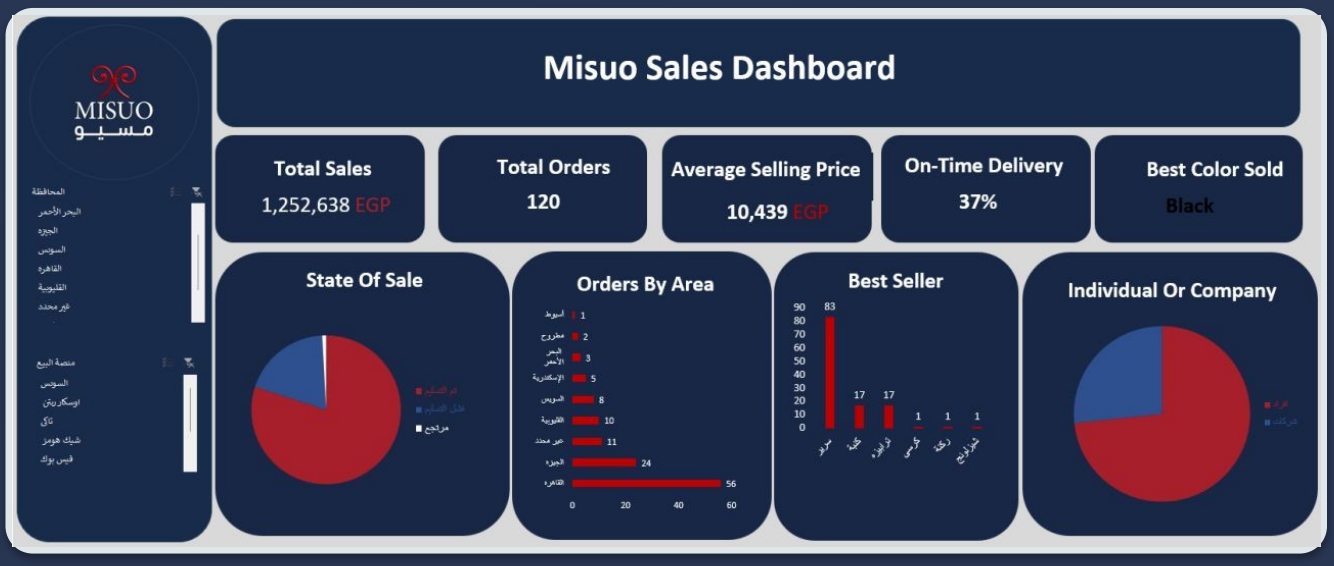

WHAT THIS DASHBOARD DOES

Turns company-provided sales records into an interactive Excel dashboard for tracking performance and supporting operational decisions.

BUSINESS QUESTIONS

- How much sales value is recorded?
- Which products, colors and areas lead?
- Which platforms generate the most activity?
- How efficiently are orders fulfilled?

MY INTERACTIVE EXCEL DASHBOARD

الهدف من المشروع كان تحويل بيانات المبيعات من شكل غير منظم إلى Dashboard واضحة، تساعد في متابعة الأداء وفهم فرص التحسين.

Data Cleaning & Preparation

FROM RAW DATA TO ANALYSIS-READY DATA

RAW DATA

126 rows

21 original columns

→

PREPARED DATA

120 rows

24 final columns

KEY ISSUES IN THE SOURCE DATA

Missing / blank fields	Some identifying and delivery fields were incomplete.
Inconsistent labels	Product, status and geographic names needed review.
Mixed date formats	Dates appeared as both text and Excel date values.
Uneven identifiers	Order IDs were sometimes missing or repeated.

CLEANING & ENRICHMENT OUTPUTS

Customer classification • Governorate extraction
Expected & actual delivery durations • On-time flag

مرحلة تجهيز الداتا كانت الأساس، لأن أي اختلاف في القيم أو التصنيفات ممكن يغيّر نتيجة التحليل بالكامل.

Transformation & Analysis Setup

AN AUDITABLE EXCEL ANALYTICS WORKFLOW

01	02	03	04	05
SOURCE	**PREPARE**	**ENRICH**	**SUMMARIZE**	**VISUALIZE**
126 raw rows	120 final rows	New columns	Pivot Tables	Dashboard

FEATURE ENGINEERING

Customer type	Classified rows into individuals and companies.
Governorate	Extracted geographic labels from addresses.
Delivery measures	Compared expected and actual delivery durations.
Delivery flag	Assigned an on-time indicator used in the dashboard.

ANALYSIS STRUCTURE

Pivot Tables summarize products, locations, platforms, customer segments, delivery states, sales amounts and dashboard KPIs.

استخدمت Pivot Tables علشان أحوّل الداتا المجهّزة لأرقام ورسومات تفاعلية تقدر الإدارة تراجعها بسهولة.

Sales & Market Performance

TOTAL SALES

1,252,638

EGP · all order statuses

TOTAL ORDERS*

120

Analyzed records, not distinct IDs

AVG. SELLING PRICE

10,438.65

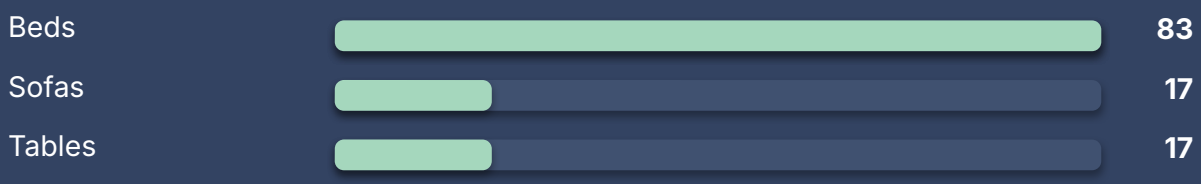

EGP per analyzed record

ON-TIME FLAG

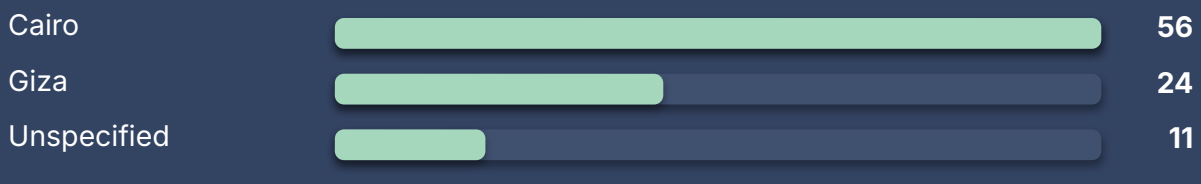

36.7%

44 positive flags / 120 records

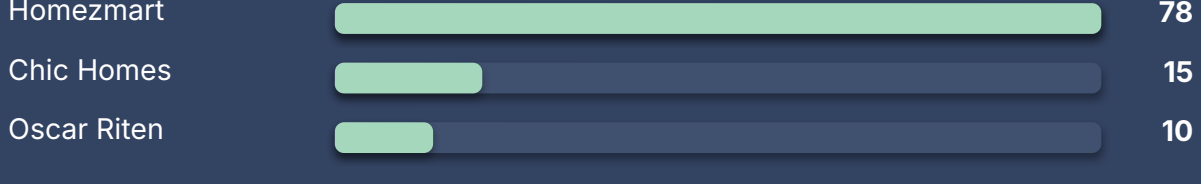

TOP PRODUCT CATEGORIES · RECORD COUNT

TOP GOVERNORATES · RECORD COUNT

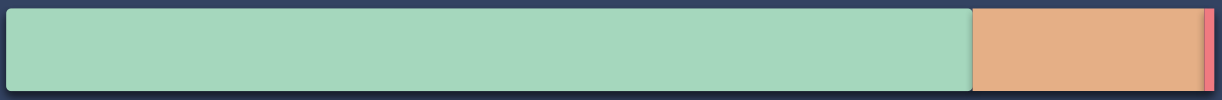

TOP SALES PLATFORMS · RECORD COUNT

Most common recorded metal color: black (45 of 102 nonblank color values).

Delivery & Customer Performance

ORDER STATUS DISTRIBUTION

Delivered
96 records · 80.0%

Failed
23 records · 19.2%

Returned
1 records · 0.8%

ON-TIME DELIVERY INDICATOR

36.7%

44 of 120 analyzed records flagged on time

INDIVIDUALS VS. COMPANIES

88 Individuals

32 Companies

Interpretation: the 36.7% rate is the share of all 120 records flagged on time; this includes non-delivered rows with a zero flag. Two delivered records lack an actual delivery date.

Key Insights & Recommendations

01 PRODUCT DEMAND

Beds lead with 83 of 120 records (69.2%).

ACTION Focus stock planning and availability checks on key bed ranges.

02 GEOGRAPHIC DEMAND

Cairo contributes 56 records (46.7%); Giza adds 24.

ACTION Prioritize delivery capacity and service monitoring in high-demand areas.

03 CHANNEL CONCENTRATION

Homezmart accounts for 78 records (65.0%).

ACTION Compare channel economics before increasing marketing investment.

04 FULFILLMENT OPPORTUNITY

96 records show delivered status; 44 are flagged on time.

ACTION Investigate delay causes and track delivered-only punctuality separately.

IMPORTANT METRIC DEFINITIONS

“120 orders” in the dashboard means 120 analyzed rows, not 120 verified unique order IDs. “Total Sales” is the sum of recorded selling prices across delivered, failed and returned statuses.

MISUO / SALES PERFORMANCE

THANK YOU.

Questions, feedback, and opportunities to connect are always welcome.
